

S100

2 panel sleeve

Bleed art to the dotted line

Keep text .125" away from the solid line

The interior solid line represents the art area for you to place your design, the middle solid line represents the fold line and the exterior dashed line represents the bleed line.

Important: Your design must extend to the bleed line.

If you'd like a **top loading sleeve** you'll also need to flip your art 180 degrees (upside down) before submitting it.

IMPORTANT: Please provide .125 in bleed on the left and right sides, and a .1875 bleed on the top and bottom.

Art should go all the way to the dashed line for bleed. The solid line is the cut line. The green line is the safety line- ALL TEXT AND IMPORTANT ELEMENTS NEED TO STAY INSIDE THE GREEN LINE.

Please remove or turn off template layer before submitting.
